refined shelving  
unit for indoors  
and outdoors

## FAQ - Rabat Shelving

### Use

---

#### Which features does the Rabat Shelving offer me?

The refined Rabat Shelving is a uniquely refined closet that is suitable for indoors and outdoors. It is available in a high or low option. With several shelves it is ideal for storing stuff. Use it as a room divider, a garden divider or an extension to your outdoor kitchen.

### Safety

---

#### What safety hazards does the Rabat Shelving pose?

Like any closet that is not secured to a wall, there is a risk of it toppling over. When possible, always try to secure the Rabat Shelving to the wall. If this is not possible, make sure to keep an eye on small children.

### Maintenance

---

#### What do I need to pay attention to when maintaining the Rabat Shelving?

The Rabat Shelving is partly made of zinc plated and powder coated steel, a material that requires very little maintenance. Clean the steel about twice a year with a mild soap solution and a soft cloth.

The larch wood does well in outdoor conditions and does not require a lot of work. For easier cleaning and to slow down the aging process of the wood, treat it with an oil treatment twice a year.

#### How important is maintenance to the Rabat Shelving?

To keep your Rabat Shelving looking new, maintenance twice a year is recommended.

#### Which cleaning products can I use on the Rabat Shelving?

A mild soap solution and clean water.

### Weather conditions

---

#### Which weather conditions will the Rabat Shelving withstand?

The Rabat Shelving is designed to be used indoors and outdoors. It is therefore able to withstand daily weather conditions. However, leaving it outside permanently will cause the larch wood to gray. To prolong its lifespan, we recommend treating it with a wood oil twice a year.

### Material

---

#### What materials does the Rabat Shelving consist of?

Larch wood, zinc plated and powder coated steel.

#### How much does the Rabat Shelving weigh?

Rabat Shelving Low: 42,5 kg / 93,6 lbs

Rabat Shelving High: 76 kg / 167,5 lbs

#### Is the Rabat Shelving easy to move?

The Rabat Shelving is easy to take a hold of and lift. We do recommend lifting the Rabat Shelving with more than one person.

### Packaging

---

#### How will the Rabat Shelving be packaged?

Rabat Shelving will be delivered in flat pack packaging.

#### What packaging materials are used?

Cardboard..
