FAQ - Carrier

Use

Which features does the Carrier offer me?

The Carrier consists of a carrying basket with a container clicked inside the basket's frame. This container functions as a lid of the basket and as a seat. The wired basket as well as the container lid can be filled with belongings. Simply twist the lid off of the container. Thanks to its integrated handle, the Carrier can be carried everywhere.

Safety

What safety hazards does the Carrier pose?

The weight capacity of the Carrier is 120 kg. Putting more weight on it could cause the Carrier to break or collapse.

Maintenance

What do I need to pay attention to when maintaining the Carrier?

The Carrier frame is made of zinc plated and powdercoated steel. To clean, use a soft cloth or non-abrasive brush. Use a mild soap solution and always rinse with clean water afterwards.

How important is maintenance to the Carrier?

We recommend cleaning the Carrier around twice a year.

Which cleaning products can I use on the Carrier?

A mild soap solution and clean water

Weather conditions

Which weather conditions will the Carrier withstand?

The Carrier is able to withstand daily weather conditions. The ECOPIXEL container functions as weatherproof storage.

Material

What materials does the Carrier consist of?

A wire construction made of electrolytic zinc plated and powdercoated steel. A cover made of ECOPIXEL: at least 90% of recycled Low-Density PolyEthylene.

How much does the Carrier weigh?

6 kg / 13,2 lbs.

Is the Carrier easy to move?

The light design and the strong integrated handle allow for easy moving of the Carrier.

Packaging

How will the Carrier be packaged?

The Carrier is delivered in a cardboard box.

What packaging materials are used?

Cardboard.

What are the dimensions of the packaging?

36 x 36 x 49 cm
